DETAILED ACTION

Request for Continued Examination

1. The request filed on March 13, 2006 for a Request for Continued Examination (RCE) under 37 CFR 1.114 based on parent Application No. 10/694,148 is acceptable and a RCE has been established. An action on the RCE follows.

Allowable Subject Matter

2. Claims 1-29 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1-10 is the inclusion of the limitation of a radiating spherically configured ring element formed as a substantially solid spherical sector having about one-half wavelength circumference in natural resonance. It is this limitation found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 11-19 is the inclusion of the limitation of a radiating spherically configured ring element formed as a substantially solid spherical sector having a capacitive element formed therein. It is this limitation found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 20-29 (See Office action mailed on June 29, 2005).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
